

MÅNGSIDIG

Att välja en duschkörna ska vara både enkelt och roligt. Därför har våra snillen i "Bathlife-labbet" tagit fram serien MÅNGSIDIG, som är extra lätt att bygga.

Alla delar i MÅNGSIDIG-serien passar med varandra. Dessutom är de helt vänd- och roterbara och passar på valfri sida. Välj helt enkelt en eller flera delar i de(n) längd(er) du önskar och kombinera fritt.

Den enhetliga och snabb-byggda designen innebär att vi kan erbjuda hög kvalitet till ett lågt pris. En dyr smak behöver inte kosta, helt enkelt.

MARCUS KJELLMAN

Bygghemma Sverige AB

Choosing a shower corner should be easy and fun. That's why our bright minds in the "Bathlife lab" have developed MÅNGSIDIG, a notably easy to build series.

All parts in the MÅNGSIDIG series are compatible with each other. They are rotatable and can be fitted on either side. Simply choose one part or more part(s) in your desired length(s) and combined freely.

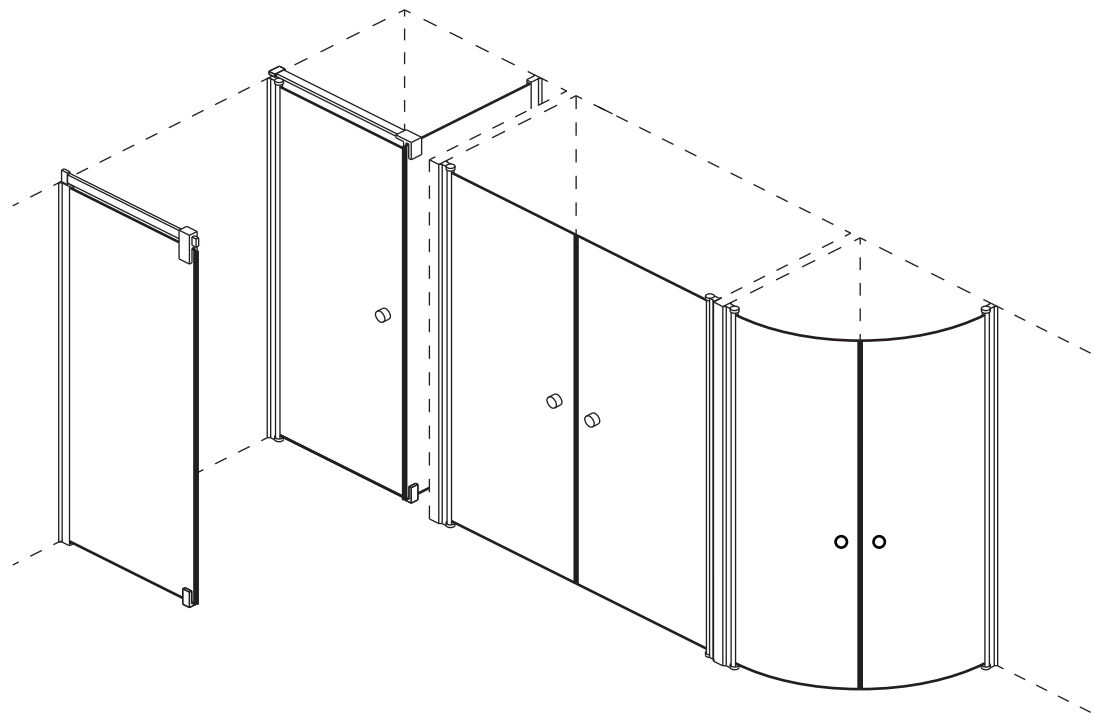

The smart and simple design allows us to offer great quality at a reasonable price. Simply put, expensive taste at a bargain.

Valitsemalla suihkunurkkaus pitäisi olla helppoa ja hauskaa. Siksi meidän kirkas mielissä "Bathlife lab" on kehittyneissä MÅNGSIDIG, joka on erityisesti helppo rakentaa sarjaan.

Kaikki osat MÅNGSIDIG sarjassa ovat yhteensopivia toisiaan. Ne ovat käännettävissä ja voidaan asentaa kummallakin puolella. Valitse vain yksi osa tai useamman osan(t) haluttu pituus(t) ja vapaasti yhdisteltävissä.

Älykäs ja yksinkertainen muotoilu antaa meille mahdollisuuden tarjota suuria laatu kohtuulliseen hintaan. Yksinkertaisesti sanottuna, kallismaku edulliseen.
